HOOSIERS WIN A GREAT CONTEST.

President Nimick Talks About the Case of Pitcher Conway.

GENERAL BASEBALL NEWS OF THE DAY

Umpire McQuaid called the game between the Pittsburg and Chicago clubs vesterday at the end of the second inning and created a blg surprise by doing so. There was no rain falling and the diamond was quite dry. The score was 4 to 2 in favor of the home team. Indianapolis won a great game from Cleveland by 1 to 0. Rain stopped the other games. Pitcher Conway has not reported for duty yet and President Nimick says he is receiving pay from the club.

Of the 700 or 800 people who went over to Recreation Park vesterday to see the last game of the series between Chicago and the local team fully 75 per cent would, doubtless, leave the grounds convinced that hard luck and the umpire were against the home players. The game was called at the end

When the game was called it is safe to say that never was a crowd more disappointed than were the crowd in the grounds. There wasn't a drop of rain falling and very little, indeed, had fallen. The surprise was so great that everybody was asking the question: "What's the matter?" When the game started the weather was as threatening as it could well be in fact, rain was falling slightly and thunder could be heard in the distance. The rain was very slight, however, but at the end of the d inning it began to fall a little brisker, but not heavy enough to anything more than

M'QUAID SURPRISED THEM. McQuaid called for the customary half hour suspension of play and when the half hour had expired he called the game, although the atmosphere was clearer and drier than when the game started. It is needless to say that this strange decision caused some very warm grumbling and dissatisfaction.

Captain Dunlap said: "I argued with Meshould be continued. He wouldn't be consituation." President Nimick and Secretary Scandrett were both considerably amazed and surprised at McQuaid's resolve, and Mr. Nimick said: "The rule which gives the umpire absolute authority in a case such as this is foolish one. Probably there is nobody on the ground more interested financially in the game than I am, and yet I cannot say a word in the matter. We have our patrons to look after and protect. I am aware that scarcely a lady or gentleman on the grounds thinks other than that the game should have been played, and While there is ample reason for such com-plaints, we, the officials of the club, have not a, thing to do with it. The rule is a bad one, be -cause there certainly should be a little mor a power given to the home club." they'll feel angry because it has been called. Whether or not the home team would have wen the game had it been finished is a matt er of conjecture, but as far as the game went the home players had decidedly the best of it.

WERE AFTER GUMBERT'S SCALP. It looked as if the local team was determi ned to find Gumbert's measure, while Galvin was in something like his old-time form. The risitors were also fielding loosely, except To mmy Burns, who made two phenomenal stops of grounders to third base. Beside being hit hard

Burns, who made two phenomenal sto; is of grounders to third base. Beside being his, hard in the two innings. Gumbert was exceed fingly wild. In the first inning he gave Han on his base on balls, and Hanlon stole second. Carroll got his base on balls and Beckley k accked out a two-bagger to center field. Hanlo a scoring and Carroll reaching third. Carr oll was nabbed at the plate by Miller's short g counder to Burns. Miller stole second and Pfeffer muffed Darling's throw, which enabled Beckley more to score. Miller got to third on a pa ised bail, and Rowe got his base on balls. He's tole second and Darling made another wer sched attempt to catch him. The error allow ed Miller to score.

In the second inning Dunlap reach ed first on a fumble by Pfeffer and stole second. Galvin struck out. Hanlon made a hit to third, and Beckley knocked out a splendid si ngle to middle, sending Dunlap home. Miller made a hit to Burns, which was admirably fiel ded, and the bases were filled. Rowe was ret ired at first. Leaving the three men on bases.

For the visitors Ryan got his base on balls and Van Haltren.

The home players had no error s. Pfeffer had two and Darling one. Galvin j ave three men bases on balls and Gumbert ga re three. Manl and Galvin were struck out. and so was Darling. Duffy and Bastian each had a sacifice hit, and Miller and Darling each had a passed hall. Hanlon, Rowe 'trad Danlap each had a passed hall. THE CARDINAL INVITED

To Witness St. Philomona's Celebrati A Magnificent Improvement About Fin-

St. Philomena's R. C. Church, which has been for some time the subject of exterior and interior repairs, will be formally reopened on the first Sunday of October by a grand jubilee service commemorating the fiftieth anniversary of the existence of the parish. The interior has been repainted and varnished, and the woodwork in the chancel and back of the altar has been handsome relieved with gilt. The immense height of the apex of the roof-60 feet-has necessitated the use of an elaborate system of scaffolding, now being removed. The prevailing tint inside is almost white, with splashes of sea-green, and the glitter of the varnish will add to the general effect, inasmuch as a complete system of incandescent lights is to be put in. This is said to be the first Roman Catholic church in the two cities to permanently adopt electricity as a means of illumination. The altar lights will continue to be by candles and tapers, although some of the side lights will be incandescent. Father Werner stated that the interior repairs would cost not far from

\$3,000.

The scaffolding on the exterior of the church was erected to admit of what is called "pointing," a technical term signifying the replacing of old and decayed plaster or brick, much of which on the front of the steeple needed repair. There will not be any attempt made to paint the exterior of the church. Father Werner alluded to the use of coal by Pennsylvania engines in and around Union depot very indignantly, and said that the locality of the church is just as badly affected by smoke as in the old days when coal was universally burned. He stated that he intended to protest to the city authorities, and demand that existing ordinances be enforced, because locomotives could ances be enforced, because locomotives could use coke or charcoal very easily within city limits. The church will be open for the celebration of the feast of St. Alphonsus

next Sunday.

Rev. Father Bernard Beck, of St. Philomena's clergy, has in press a history of St. Philomena's parish. The volume will be out in a few days, and it contains much that is of interest bearing upon the early ecclesiastical days of Pittsburg. St. Philo-mena's parish was the first location of the Bedemptorist Fathers, who came to America in 1832, and tounded the Pittsburg church on April 13, 1839, it being the first German Catholic Church in America. The parish was the mother church of Western Pennsylvania, Ohio, and Virginia and enlisted the earthly labors of German priests of german eminence and niety. The old of great eminence and piety. The old "factory church" which was used as a place of worship for many years being superseded by the present structure 14 years since, will be the subject of quite extended notice. It contained the first bell used in Western Pennsylvania in public worship. The ancient bell is carefully preserved by the church authorities and will be brought out for the jubilee service. It will then be taken to the chapel of the St. Philomena

Rev. Father Werner has invited a number of Pennsylvania clergy and various bishops of the churches to be present, and it is possible that His Eminence, Cardinal ons, will be prevailed upon to attend the elaborate services now in course of

A BULLET IN HIS BRAIN

Does Not Seem to Have Much Effect Upon

an Attempted Suicide. CHICAGO, July 31 .- The case of Herman Carman, the wealthy real estate man who made an unsuccessful attempt to commit suicide yesterday afternoon, is regarded by the doctors as one of the most remarkable of the kind on record. Notwithstanding the fact that the second bullet fired by the man passed upward through the roof of the mouth and penetrated the brain, he is con-scious and recognizes not only the members of the family, but also the doctors and others whom he has seen.

Drs. C. H. Graves and Webster probed for

both of the balls this morning, and found the first bullet, fired Sunday, lodged in the thick bone about the ear; the other, and the one likely to prove fatal, was found to be in the top of the head near the skull. The effect of this bullet has been to paralyze the effect of this builet has been to paralyze the right side of the body, and from this fact the doctors know exactly the locality of the ball. Dr. Graves says there is but one hope of a complete recovery, and that lies in removing a part of the skull, and taking out the bullet from the brain.

The case is considered all the more removable from the fact that drains the

markable from the fact that during the two days Mr. Carman carried the first bullet in his head he partook heavily of food, and talked with everyone in a way not to arouse the slightest suspicious of the family.

ISPECIAL TELEGRAM TO THE DISPATCE. CLEVELAND, July 31 .- Though Thursday was the day when records were supposed to be smashed by the flyers at the driving park, Wednesday has come in first and a new record for stallions was made by the Tennessee pacer, Brown Hal, who made the third heat in the free-for-all contest for side-wheelers in 2:12%. This is half a second faster than the mile paced by the same horse at Lexington in 1887. Though Brown Hal finally won the race Wednesday through the skillful driving of Geers, the form shown by Roy Wilkes cannot be overlooked, for he fought every heat, pacing the second in 2:13, which for a few minutes made him equal with the champion. It was the first time in a race that a best on record was tied by one horse and then a new mark made by the original champion, so that the pacing contest of to-day will be a memorable one in turf history. Brown Hal went lame after the third heat but there was so much money on him that he was not drawn. Up to the sixth heat the issue was uncertain, but the horse showed wonderful courage at a critical time and grad-

ually drew up on Roy Wilkes, who broke near the wire, and Hal had the lead by an eye lash. The only trotting contest was between the 2:27 fiyers, and once again the Utica stallion, Sprague Gold Dust, has defeated, this time by the young mare Annie H, who won by outlasting her opponents. Four horses lowered their records in this contest, Jim Fuller beating 220 for the first time, while Sprague Gold Dust and Annie H made miles in exactly 2:20. The New York mare, Miss Alice, showed good form for an inexperienced trotter, even after getting her sulky smashed by Tippie in the fourth heat. First race, seiling, purse \$400, for 3-year-olds that have not won during this meeting, six furlongs—They got off with Vivian in the lead by a length, who set the pace to the three-quarter post. Coming into the stretch it was too hot for ner, and she gave way to Entry, who won easily by a length, Moderick Dhu second and Vivian third. Time, 1:16.

Second race, seiling, purse \$400, for 3-year-olds that have run and not won at this meeting, seven furlongs—They got off at the second trial, Angelus isking the lead, and he was never headed, though Zuiu pushed him hard to the head of the stretch, where the filly threw Fox over the fence and cantered up to the stand first. War Feak second, Alphonse third. Time, 1:29.

"Third race, purse \$400, for 2-year-olds, five furlongs—Morse took the lead at the start and was never headed. The finish was very fine, all being bunched in the stretch and whipping hard. Morse won by half a length from Blarney Stone, Lena Ban third. Time, 1:238.

Fourth race, purse \$500, for 3-year-olds and upward, one mile—Brown Princess was given a ength the best of a bad start, Mabel last. At the half Mabel had come to the front and was going at a tremendous pace a length in front of Brown Princess. Entering the stretch Newada and Mabel were neck and neck, but Mabel had not the siaying qualities and Brown Frincess took the lead, winning by half a length from Newada, Kate Malone third. Time, 1:238.

Fifth race, Twin City Merchants' handicap sweepstakes for 3-year-olds and upward, of \$100 each, with \$1,500 added by the merchants of Minneapolis and St. Paul, one mile and seventy yards—This was a beautiful race from start to finish. A blanket might have been thrown over the bunch at any pount. Catalpa came under the wire a winner amidst thunderous applause. They were sent off to a good start, all bunched. Passing the stand Lawinia Belle, Wooderaft third. Time, 1:45%. The race was worth \$8, 120 to the winner. Third, 1:6%. The rac

The Americans Won. LONDON, July 31.-The cricket match tween the Geutlemen of Southampton and the Philadelphia team was concluded to-day, the home players finishing their second inning for 210 runs, making a total for the two innings of 318, as against 229 for the Americans. The Americans thus won by II runs. In to-day's playing Margan, of the Philadelphia team, caught out Nicholson in grand style.

JOHN MAKING MERRY.

New York. New York.

New York, July 3i,—Champion John L. Sullivan, accompanied by his backer, Charlie Johnson, made the rounds of the various sporting places in this city this afternoon, and also paid a visit to the various city and county departments. The champion was very liberal with his money, and presented several small boys with various dimes and quarters which he found about his clothes. He seemed very playful, and several times he jokingly punched Johnson in the face with a fist that looked like a sledge-hammer.

As Johnson was stooning down to tie his shoe

Johnson in the face with a fist that looked like a sledge-hammer.

As Johnson was stooping down to tie his shoe Sullivan dropped a match with which he had just lighted a cigar down the neek of his backer. Charile jumped about three feet in the air and then he expressed his opinion of the performance in very measured terms. During the excitement consequent upon the champion's presence, and white, everybody was gathered around him, several small boys took advantage of the opportunity to make a raid on the free lunch table, and when they got through with it t looked like a desert. At every place the champion stopped he had several drinks, but they had no more effect upon him than water.

eral drinks, but they had no more effect upon him than water.

He smoked cigars one after another, and the rapidity with which they vanished astoulshed the spectators. He is again growing a mustache, and is somewhat inclined to fatness. When asked his opinion concerning his trainer, Billy Muldoon, he replied: "I consider Muldoon to be a gentleman."

During the afternoon Sullivan was as playful as a kitten, and although he drank enough to make two ordinary men paralyzed drunk, it had no effect upon him whatever. Philadelphia cricketers defeated the Southampton gentlemen. There was good

SULLIVAN'S DILEMMA.

The Champion Puzzled Regarding Facing the Mississippi Authorities.

NEW YORK, July 31.—There have been set eral conferences on the subject of returning to ichburg between Sullivan, Johnson, Wakely, uldoon, Barnitt and Dan Murphy, but up to a late hour last night no definite de

een reached.
Rumors that Governor Lowry had sent a papers and warrants were current yesterday. No doubt there are plenty of officers in Mississippi who would be glad to make an effort to obtain the \$1,500 reward offered by the State, and the reports are probably not without foundation.

and the reports are probably not without foundation.

The penalty for prize fighting in Mississippi is a fine of not more than \$1,000 and not less than \$500, or imprisonment in a county jail not less than \$12 months, or both. All aiders and abettors are punishable by a fine of not less than \$100 or imprisonment for six months, or both. If Sullivan should attempt to go on the road with a company he would be in continual danger of arrest, and some of his firmest friends are of the opinion that he will decide to "face the music" and be free from restraint. There is an impression that the authorities in Marion county would be lenient with the champion, because he had nothing to do with the selection of Mississippi as a battle ground, and thought the fight was to take place in Louisiana.

THE PARSON EXPLAINS. He States How False Reports Have Been

Given About Jackson. CHICAGO, July 31.—"Parson" Davies arrived from Buffalo last night, and was much surprised at some of the reports he read concern-ing the little spat between Jackson and Lees. The trouble came about by Lees attempting to leave the combination, and, addressing Jackson roughly, demanded his salary, to which Jackson

roughly, demanded his salary, to which Jackson replied: "Since you mean to leave me in the lurch so as to be unable to secure any one in your place, I will just make you wait until I get ready to pay you."

Lees then called Jackson a black—
Jackson then struck him. A scuffle ensued, but the men were quickly separated, and Lees ordered to leave the hotel. The combination is doing well, and will leave for England in about three weeks. As regards Jackson's set-to with Lynch, the Parson says Lynch grabbed Jackson's legs to avoid the terrible punishment he was receiving and win on a foul. The police interfering. Referee Higgins declared Jackson the winner.

SIR THORNTON DEAD. The Famous Young Pacing Stallion Suddenly

JOLIET, ILL., July 31.—The fast pacing stallion Sir Thornton was found dead in his stall at the Joliet race track this morning. It is re-ported that the cause of the horse's death was digestion, brought on by cooling off too soon ter his remarkable performance at Aurora. atter his remarkable performance at Aurora. Sir Thoroton was by Reveille, and belonged to H. P. Wade, of Jefferson, O.

At Aurora, in the 285 pace, he made a surprising record for a 3-year-old stallion. There were 12 starters, and he won in straight heats, distancing seven of his competitors. The time in the second heat—220%—was the best ever made by a 3-year-old pacing stallion. The horse was valued at \$15,000.

Murphy Hart His Wrist. SAN FRANCISCO, July 31 .- After the Murphy SAN FRANCISCO, July 31.—After the Murphy prize fight last night the men were taken into a room and examined by a doctor. It was found that Billy Murphy had a fracture of the radius of the left arm. Frank Murphy claimed that he was badly disabled, but the doctor found no fractures, though the left wrist was swollen and discolored, and there were large lumps over his left eye and on the left ear. Billy Murphy's condition will preclude any possibility of the fight being continued for some time, and Referee Cook stated that as the club did not sanction betting, parties having wagers could settle the question among themselves.

ALEDO, ILL., July 31.-Mrs. Isaac Artz vas arrested here by Sheriff Warwick last night charged with poisoning a former husband. The woman's history is a remarkable one, and is causing a sensation as it is being brought to light. She was married more than 20 years ago to David Ramsey, a farmer of this county. After some time, during which two children were born, they ing which two children were born, they were divorced, Mr. Ramsey subsequently moving to New York. Mrs. Ramsey soon married a man by the name of Coleman, living with him a number of years. Mr. Coleman died suddenly about three years ago, and many neighbors suspected that his wite had poisoned him. She remained in this county till last May, when Isaac Artz, well known in this vicinity as "The Prophet," became infatuated wiin her. Mrs. Coleman was very willing to marry Artz, but he told her the Lord would not allow him to marry her while her divorced husband lived.

About this time Mrs. Coleman opened up a correspondence with her first husband, Mr. Ramsey, who resided in Elmira, N. Y., which resulted in her going back to Elmira. About the 1st of May she and Mr. Ramsey were re-married. The second day after the wedding Mr. Ramsey was taken violently ill and died, declaring that she had poisoned him. Mrs. Ramsey, soon as the funeral was over, came back to Aledo, and in 21 days after Ramsey's death, married Artz, who now had no objections. Mr. Ramsey's body was taken up and arsenic was found in his stomach. As soon as this was known the Coroner of Elmira telegraphed the fact here and Mrs. Artz was arrested. THE TYPHOID EPIDEMIC.

Interesting Statistics Bearing on the Local Prospects-Allegheny Somewhat Alarm-

ed-Park Wells Denounced. The Bureau of Health report for the month of July, 107 cases of typhoid fever, with only 18 deaths resulting from the disease in the Pittsburg district. No great

was going to take place. In the year 1880 there were 211 deaths out of 432 cases reported to the Bureau. The first quarter of the year there were 48 deaths and 87 the second. In the upper Southside wards the disease was most prevalent, and it is believed to have been due to the extensive use of well water. In the year 1882 there were 1,782 cases reported, which resulted in 268 deaths. Children and elderly people were more susceptible to it in that year than those in middle life. In 1883 there were 1,142 typhoid fever cases, with 188 deaths, only 13,0 per cent. Eighteen hundred and only 13.0 per cent. Eighteen hundred and eighty-four reported a less number of cases, but a larger percentage of deaths. Five hundred and twenty-five cases were returned to the bureau, with 130 deaths, a percentage of 24.8. This unusually high death rate is explainable by the supposition that the cases were not fully reported. In 1885 992 cases were reported, and 154 deaths occurred, a percentage of 15.4. The year 1886 saw 1,045 typhoid fever cases, and 140 deaths, with a death rate of 13.4. In 1887 the largest number of cases was reported, with the lowest ber of cases was reported, with the lowest death percentage between the years 1880 and

death percentage between the years 1880 and 1887; there were 2,226 cases, out of which 269 died, a mortality per cent of 12.1.

When taken in conjunction with this year's report these figures ought to dispel the anxiety that any unusual epidemic of typhoid fever is to be feared. The Allegheny authorities have not been able to stamp out the typhoid fever epidemic. Seven deaths occurred yesterday. Dr. Faulkner thinks that the disease is due entirely to impure water. He also opines that Faulkner thinks that the disease is due entirely to impure water. He also opines that some of the wells in the park will cause widespread sickness. He instances a well sunk in Sherman avenue park right in the center of an abandoned graveyard, and says that the depth of 100 feet is not sufficient.

Dr. Faulkner goes on to say, that when the bodies were removed each grave had water in it. The remains of Mr. 2012. the bodies were removed each grave had water in it. The remains of Mr. Siedle had become so hardened that it resembled a mummy. Another well near the band stand is within 100 feet of the old Western

warden Wright said that when the bodies were exhumed to be reinterred in Union-dale Cemetery, only a part of them were taken out. An Allegheny Councilman said that the very idea of drinking the water from park wells makes him sick.

There are 30 cases of typhoid fever at the Allegheny Hospital. Health Officer Bradley thinks the typhoid fever in Allegheny can be traced to the Johnstown flood. He stated that the activation about the river stated that the agitation about the river the wells for drinking water.

The Pittsburg health officer said there was no fear of an epidemic in Pittsburg, but that there were a number of cases.

There are 20 cases of typhoid fever in the West Penn Hospital at present. The total number of patients in the hospital is 221, about 40 more than can be well accomm

OFFICER ROCHE SPRINTED. A Lively Foot Race in Which Bad Mr.

The notorious Jack Walsh, of the Twelfth ward, was last night arrested by Officer ministration, about 1,800 reissues. These reissues cover all clauses known to the pension laws and include all cases of rerating, which it is said average from 3 to 5 per cent of the whole number of reissues. Therefore the reratings found in these two months will probably aggregate less than 200. It is stated further that the reratings probably do not average more than from \$2\$ to \$4\$ per month, but the arrers in many cases are carried back to the date of the original application, some of them as far as 1865.

The investigation, so far as it has gone, is believed to have convinced the committee that there has been a gradual increase in the number of pensions rerated since late in the summer or early fall of last year. It is confidently asserted that the committee have discovered nothing whatever of a sensational character, either in the number of reratings or the amount of money involved.
